## Padaca maintains lead over Dy in Isabela

By Philip Padaca  
With Special Correspondent

ISABELA, Philippines—Governor-elect Padaca has been re-elected to his second term in the Isabela provincial election, defeating his closest rival, Dy, in a landslide victory.

Padaca, who has been in office since 2001, won 58 percent of the vote, while Dy won 42 percent. The results were announced by the Provincial Election Commission (PEC) on May 19.

Padaca's victory was a surprise to many, as he was considered a long shot to win the election. He had only been in office for a short time, and his record was not well known.

Padaca's campaign was based on his record of development and his commitment to the people. He had been in office for a short time, and his record was not well known.

## Retirement

### H

## Editorial

The Philippine Retirement Authority (PRA) has been established to manage the retirement benefits of government employees. This is a significant step towards ensuring the financial security of our public servants in their golden years. The PRA will be responsible for collecting contributions, investing them wisely, and disbursing benefits when the time comes. It is crucial that the PRA operates transparently and efficiently to earn the trust of the public. We hope that the establishment of the PRA will set a precedent for other government agencies to follow, ensuring that all public employees are treated fairly and their retirement needs are met.

## True wealth

True wealth is not measured by the number of cars in a garage or the size of a mansion. It is measured by the health of a family, the strength of a community, and the integrity of a nation. In the Philippines, we have a rich cultural heritage and a strong sense of family. These are our true treasures. We must protect and nurture these values as we build a modern, prosperous society. Education is the key to unlocking our potential. We must invest in our children, providing them with the best possible education so they can become the leaders of tomorrow. We must also work together to address the challenges we face, such as poverty and corruption. Only by doing so can we achieve true wealth and a better future for all Filipinos.

## The bar examinations

Special  
Opinion

The bar examinations are a critical milestone for aspiring lawyers in the Philippines. They test the candidates' knowledge of the law and their ability to apply it in practical situations. The process is rigorous and demanding, but it is also a rite of passage for many young professionals. The bar examinations should be conducted fairly and transparently to ensure that only the most qualified candidates are admitted to the legal profession. The Philippine Bar Association and the Department of Justice have a responsibility to oversee this process and ensure its integrity. We must also provide adequate support and resources for the candidates, including access to study materials and a conducive environment for the exams. Only by doing so can we ensure that the legal profession in the Philippines is composed of competent and ethical practitioners.

## The reason for the mission

Editorial

The reason for the mission is the vision of a better future. It is the belief that through hard work, dedication, and a commitment to our values, we can overcome our challenges and build a brighter tomorrow. This mission is not just for the Philippines; it is for every nation that seeks progress and prosperity. We must have the courage to face our difficulties head-on and the wisdom to choose the right path. We must work together, across all sectors and social classes, to achieve our common goals. Education, innovation, and a strong sense of community are the pillars of this mission. We must invest in these areas and ensure that everyone has the opportunity to contribute and thrive. Only by staying true to our mission can we create a sustainable and prosperous future for all.

# Shaq, Kobe deliver goods for Lakers

LOS ANGELES — Shaquille O'Neal and Kobe Bryant delivered the goods for the Los Angeles Lakers on Tuesday, leading the team to a 107-95 victory over the San Antonio Spurs.

O'Neal, who was named NBA MVP last season, scored 34 points and grabbed 15 rebounds. Bryant, who was named NBA Finals MVP last season, scored 28 points and made 10 of 15 shots from the field.

The Lakers' victory was their 11th in a row, and it moved them to 11-1 on the season. The Spurs, who were 1-10 on the season, were eliminated from the playoffs.

The Lakers' victory was a significant one, as it marked their first win over the Spurs since 1997. The Spurs, who were the defending NBA champions, were looking to make a statement in the playoffs.

The Lakers' victory was a testament to the team's chemistry and the leadership of O'Neal and Bryant. The team's defense was solid, and they were able to control the game from start to finish.

SPAS AND SALONS ARE BECOMING HOT SPOTS FOR BUSINESS TRAVELERS.

## Global travelers define health club standards

As the world's business travelers continue to demand more amenities from their hotels, spas and fitness centers are becoming a standard feature of many hotels. In fact, a new study by the International Hotel Association (IHA) shows that 85 percent of business travelers expect a hotel to have a spa or fitness center. The study also found that 75 percent of business travelers expect a hotel to have a pool. These findings suggest that hotels are increasingly competing for business travelers by offering more amenities. This is especially true in the Asia-Pacific region, where business travelers are more likely to expect a spa or fitness center. Hotels in this region are therefore investing more in these amenities to attract business travelers. This trend is expected to continue as business travelers continue to demand more amenities from their hotels.

## Hydrotherapy showers, reflexology treatments in business class lounges

By [Name]

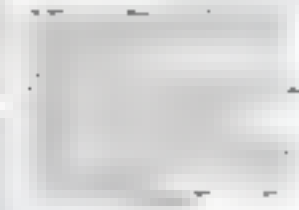

Business class lounges are becoming more luxurious than ever before. Many airlines now offer hydrotherapy showers and reflexology treatments in their business class lounges. This is a significant upgrade from the standard amenities offered in economy class. The hydrotherapy showers are designed to help passengers relax and reduce muscle fatigue after a long flight. Reflexology treatments are also offered to help passengers relax and improve circulation. These amenities are becoming a standard feature of business class lounges, and airlines are investing heavily in them to attract business travelers.

## Out of Manila and into Africa

"I (1998) have been in Manila for 10 years."

Who can ever forget the first time of seeing a man in a white shirt and a woman in a white dress sitting at a table outdoors. The man is looking towards the camera, while the woman is looking down. There are other people in the background, some standing and some sitting.
